#### Presidents QSO - By Mark K1RX

It is with sad news that I must report (for those have not heard yet) that the club station was broken into just two days after the last radio club meeting at 4:30 AM. All of the HF and VHF/UHF radio equipment was taken and was probably done by at least a couple of people.

But the good news is we have an opportunity to use the insurance we so wisely established to purchase new gear. We won't have it in time for our Field Day but no matter as many of you have already volunteered to bring your rig and accessories for all of the Field Day stations to support another spectacular 5A operation on Stratham Hill Park. Preparations are underway (as usual) to provide us the big Portsmouth Hospital Shelter and the many smaller shelters that support our large and very popular operation. WE are the big draw in the seacoast area when it comes to the biggest Amateur Radio event and we are quite proud to hold such a high honor within the community. We typically get TV and newspaper coverage and all kinds of great comments from visitors that reach the top of the hill. I ask each of you to continue serving as an ambassador to the public by making them feel welcome and free to get on the air and have an incredible experience.

The June meeting which is this Wednesday, will get into the details of another award-winner Field Day operation. This is the time to fully commit to helping with the bonus point production or signing up to help cook or bring something to the site. We will magically appear at the top of the hill on Friday, June 24 at 2 PM to get the party started. Lots of fun stuff to do and good chat time too. Get excited, our annual Field Day operation kicks off this Wednesday at 7 PM. See ya there!

73, Mark, K1RX

### Next Club Meeting June 1st 2011

## Port City Amateur Radio Club

Port City Amateur Radio Club  
P.O. Box 159  
Greenland, NH 03840-0159

2m Repeater: 145.150 PL: 123.7  
440 Repeater: 444.40 PL: 100  
Web site: <http://www.w1wqm.org>

**Serving Seacoast NH for over 50 years**

Amateur radio is an exciting hobby that can provide a lifetime of enjoyment. Radio amateurs or "hams" communicate around the neighborhood and around the world using state of the art equipment and antennas.
